

BIG IS NOW BIGGEST

MEET THE MUSSO RHINO LWB

The SsangYong Musso is an enviously stylish pick-up with road presence to spare.

And one thing it's certainly picking up is tonnes of praise. It's no wonder.

It's a big, bold, uncompromising beauty.

And the all-new Musso Rhino is bigger again, in fact the biggest truck on sale in the

UK, with the longest loadbed of any double cab pick-up adding substantial additional capability to this amazing truck.

Discover a versatile pick-up with giant-sized muscles. With a striking front-end that commands attention and dynamic character lines that sweep across to an eye-catching yet practical rear.

Its luxurious interior offers a level of comfort and tech that would feel at home in a luxury SUV. The bold exterior conveys the confidence you'd expect from a truck designed to be strong from the ground up.

Based on a robust body-on-frame with ultra-strength steel, the Musso is built using the same powerful platform as the SsangYong

Rexton – 4x4 Magazine's best value 4x4 Of The Year 2018, 2019 and 2020.

This mighty physique anchors an impressive 4-wheel drive system that enables exceptional off-road ability, performance and safety.

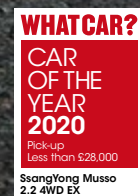

It's a physical prowess that few can match

– Musso and Musso Rhino have a 3.5 tonne towing capability* and can carry over a 1-tonne payload at the same time – the only pick-up that can achieve this!

And, it's also the only pick-up tough enough to come with our best-in-class 7-year or 150,000 mileage warranty.

*Automatic transmission.

But then, it is made by SsangYong – we're the Korean 4x4 specialists with over 65 years of experience. What else would you expect?

EXTERIOR STYLING

Some trucks simply grab attention, drawing glances from every direction. Musso is this rare beast, at home in any environment, quietly radiating power and energy.

Painstaking attention has been given to every detail of the external styling, creating a formidable urban creature.

Musso features:

- A strong and wide front end with attitude
- Daytime running lights*
- Sporty fog lamps
- Side character lines and styling
- Rugged roof bars**
- Door mirrors with LED directional flashers
- Silver and black sidesteps**
- Front and rear parking sensors†

Pick a Rhino, and you'll also find dual zone automatic conditioning, blind spot detection, lane change assist and rear cross traffic alert in addition to road presence by the loadbed full!

Musso is modern, stylish and makes a big statement.

*Rhino. **Rebel, Saracen and Rhino. †Saracen and Rhino.

HAVE IT ALL

Driving a pick-up isn't supposed to make you feel this good inside. But why skimp on interior style? We certainly haven't. The interior of the Musso has been designed to offer a level of quality and comfort you'd expect from an SUV, not a pick-up.

Jump in to discover electrically adjustable seats* in the front for you, and substantial leg room and a reclining seatback in the rear. You want the best of both worlds, without compromise; we made the Musso so you don't have to choose.

TAME THE ROAD

Musso has excellent NVH levels, with aerodynamics tuned by Pininfarina and features like quad layered door sealing, a tightly sealed engine bay, custom designed engine and body mounts and PET fabric wheelarch liners; it is truly impressive. That means whatever life throws at you, you're getting there in comfort and style.

*Saracen and Rhino. **Rebel and Saracen.

SIT BACK AND RELAX

With clamshell doors for ease of access in the front and back, plus loads of room to stretch out, every journey will mean relaxing in style. Musso has more leg and shoulder room than any comparable pick-up, meaning you and your passengers can recline in comfort. With a rear space this roomy, you might just have trouble getting people to leave.

INFOTAINMENT

A smart and intelligent choice. That's exactly what the new Musso offers you. Get comfortable and discover three advanced state-of-the-art infotainment systems.

All models come with a DAB radio and Bluetooth connectivity as standard, plus 6 surround-sound speakers for a brilliant sound.

Rebel features an 8" screen with a rear-view camera plus Apple CarPlay and Android Auto to connect to your smartphone.

Upgrade to Saracen or Rhino and you'll enjoy all of the previous system's benefits, plus a 9.2" HD touchscreen with TomTom navigation built-in. So your passengers stay entertained and you stay on track, no matter where you go.

PUSH BUTTON START

The keyless start system works when your key fob is within the vehicle. Leave it in a pocket or handbag, just push button to start – it's the most contemporary and convenient way to start your truck.

REAR CAMERA

When you're in such a powerful and imposing truck, it's important to stay in control at all times. Especially when it comes to reversing and tight manoeuvring; that's why the Musso comes with a rear view camera* that feeds to your screen to see where you're going.

You've got a job to do, and now you've got the tools to make sure you do it perfectly every time.

*Rebel, Saracen and Rhino.

HEATED STEERING WHEEL

The new Musso is full of touches you'll appreciate, especially the steering wheel.

It's shaped to give a firm grip in all conditions, giving you fingertip control of your infotainment system, phone and cruise control.

Best of all it's also heated to give you warm hands on the coldest of days. And it'll feel perfectly placed – with both reach and rake adjustment* you can customise your driving position with ease.

*Rebel, Saracen and Rhino.

SEAT FUNCTIONS

There's plenty of room to seat five passengers comfortably, with either TPU leather look or soft-textured nappa leather seats that are heated front and rear.* So even on the coldest winter morning you can feel supremely comfortable. Plus don't melt on a hot day either; simply turn on your front seat's cooling setting and relax.**

*TPU leather look heated front in Rebel; nappa leather heated front and rear in Saracen and Rhino **Rebel and Saracen.

WE SPEAK 4X4

At SsangYong, we don't just understand 4x4, we're fluent in it. As specialists with over 65 years of 4-wheel drive experience, Musso

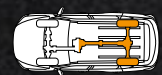

draws on everything we know about advanced 4x4 technology.

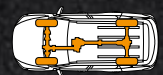

Its selectable 4-wheel drive system is reassuringly capable, whatever the need, whatever the weather.

A CAR FOR ALL SEASONS

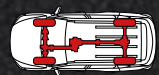

For greater efficiency and fuel-economy, our electronic vehicle control systems feature a selectable 2-wheel drive option with power delivered to the rear wheels for normal road use.

2WD

4WD
High-range

4WD
Low-range

4-wheel drive can be selected electronically to add assurance in slippery conditions.

When the going gets really tough, simply switch to low-range which splits the torque equally between front and rear axles to provide all-round traction and ensure optimum grip to master even the most demanding terrain.

HILL START ASSIST

Rolling backwards during a hill start is a thing of the past with the Musso.

In these kinds of situations, its Hill Start Assist feature acts as an automatic handbrake and is a great ally to have on your side when driving in tricky conditions or when towing.

HILL DESCENT CONTROL

Musso also helps you stay in control when you find yourself driving downhill.

Hill Descent Control can be activated at low speeds when the vehicle is handling a steep downhill drive and automatically controls the rate of descent. It even works in reverse allowing a safe and easy exit from a failed hillclimb.

POWERTRAIN

We've already established Musso offers the best of SUV comfort and the very latest modern design. But what about the heart that fuels this fearless beast?

The SsangYong manufactured turbo diesel engine makes it highly efficient and yet remarkably quiet.

This 2.2 litre Euro 6 engine delivers maximum power of 181PS at 4000rpm and maximum torque of 400Nm at 1,400- 2,800rpm.

6-speed manual transmission, or 6-speed Aisin automatic transmission, the new Musso offers a choice of either. And both offer gear changes with world-class durability and smoothness.

PAYLOAD

Keep calm and carry... whatever you want; the standard Musso can handle anything you throw at it or into it.

The surprisingly generous load deck will take 1,011 litres of cargo with a payload of 1065kg,* and is large enough to carry a full-sized Euro pallet.

The loadbed comes equipped with a 12V/120W outlet to plug your power tools into and has tie-down points to strap down loads, stopping your gear sliding around.

The loadbed has easy access via the wide opening tailgate, and with a width of 1570mm and a depth of 570mm, it offers impressive space – deeper than any other pick-up loadbed on the market.

Bed dimensions	Length	Width	Depth
Musso	1,300	1,570	570
Musso Rhino LWB	1,610	1,570	570
L200	1,470	1,470	475
D-Max	1,485	1,530	465
Ranger	1,549	1,560	511
Hi-Lux	1,525	1,540	480
Navara	1,578	1,560	474

*Manual transmission.

TOWING

Musso can pull its weight and more – Musso auto can pull a braked trailer of 3500KG, the manual 3200KG. Towing needs a stable platform, strength and power which Musso delivers with its ladder chassis made from high strength steel and muscular 2.2 litre diesel engine delivering 420Nm.

It’s a unique capability that means the new Musso can offer you unrivalled muscle and flexibility. And Musso’s selectable 4x4 provides optimum traction in all conditions. You wouldn’t want to get in a tug-of-war with this champion weightlifter.

TOTAL LOAD CAPACITY

Most pick-ups can’t tow a trailer at maximum weight and carry a full payload at the same time, but Musso and Musso Rhino are different from most pick-ups.

With a class-leading gross train weight of 6450kg (manual), 6750kg (automatic) and 6900kg (Rhino) our Korean beast has the highest total load capacity of any pick-up on sale in the UK.

*Automatic transmission.

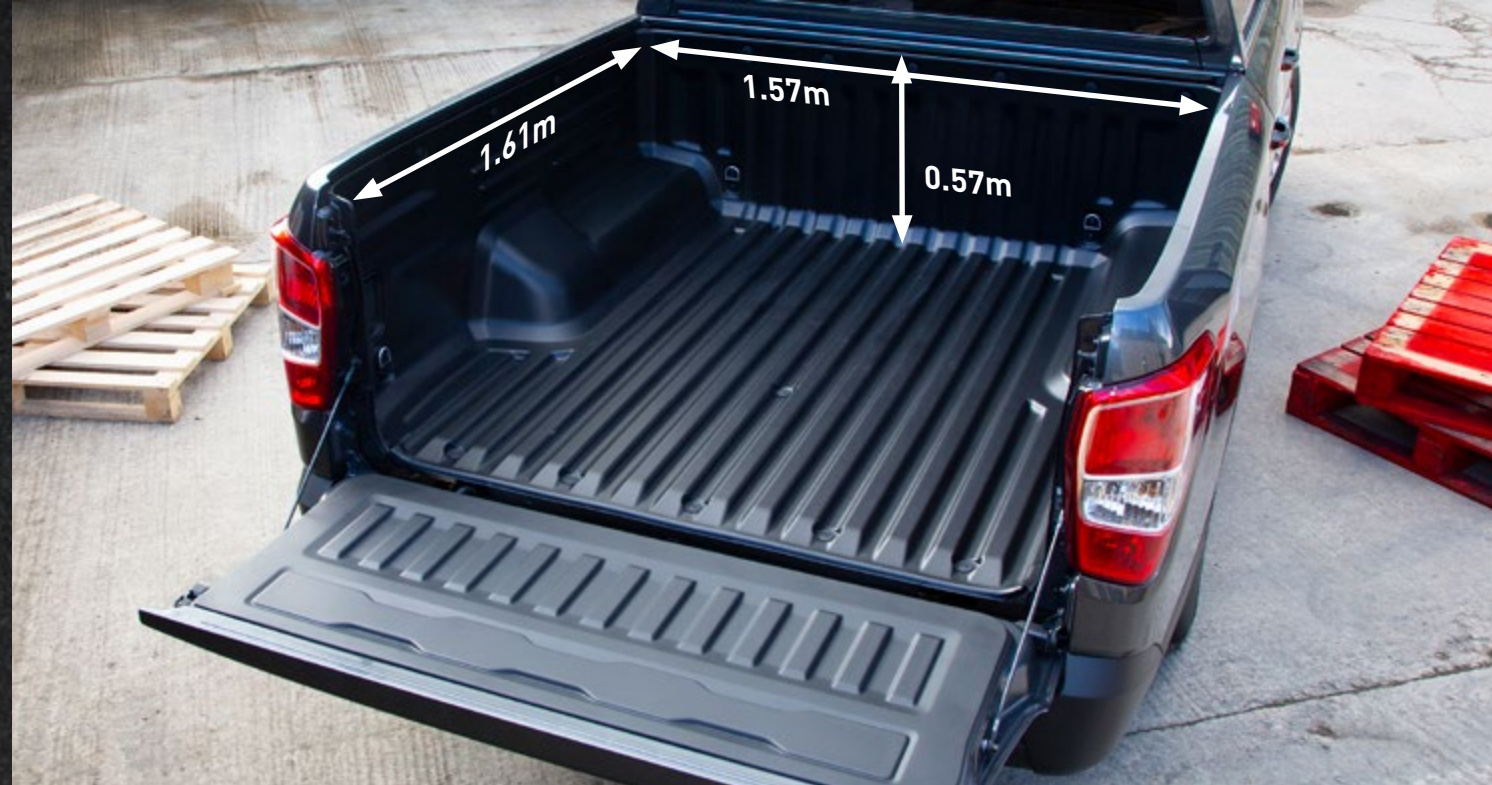

Here are some figures that are sure to impress:

	Man	Auto	Rhino
Gross train weight (kg)	6450	6750	6900
Kerb weight (kg)	2145	2155	2260
Towing limit (kg)	3200	3500	3500
Payload (kg)	1105	1095	1140
Total load capacity (kg)	4305	4595	4640

NEW MUSSO RHINO LWB – BIGGER IS BETTER

For a working vehicle its often said that biggest is best – something pick-up owners have appreciated for years.

The new Musso Rhino is the new biggest with a loadbed length of 1.61m and an overall length of 5.4m, Rhino is both practical and imposing. Its elegant profile hides its size well with strong haunches, 17" alloy wheels and a strong stance to give maximum road presence.

THE LUXURY PICK-UP

Not only can the new Rhino carry your load, but it also does it in comfort. Rhino is based on Saracen's luxury specification of powered leather heated and cooled front seats, 9.2" Hi resolution screen with TomTom satnav, Apple Carplay and Android Auto, rear camera and front and rear parking sensors.

Rhino adds automatic dual zone air-conditioning and a range of safety equipment including Blind Spot Detection, Lane Change Assist and Rear Cross Traffic Alert.

NEW MUSSO RHINO LWB – BIGGER ON SAFETY

LANE DEPARTURE WARNING*

LDW warns the driver whenever the vehicle begins to move out of its lane, unless the directional indicators are applied.

BLIND SPOT DETECTION*

BSD senses vehicles coming up in the blind spot behind or alongside the vehicle and warns the driver via a flashing light on the outside mirror.

REAR CROSS-TRAFFIC ALERT*

RCTA assists the driver when reversing by detecting the presence of vehicles approaching behind on either side.

* Rhino only.

STRONG YET SAFE

Musso may be a seriously strong pick-up truck. But it drives with the comfort of the latest SUV; with 6 airbags included for the highest possible safety. Bumps in the road are no match for double-wishbone front suspension with rear mounted coils.

Whatever the terrain, you can rest assured of the smoothest ride.

When it comes to strength, Musso can't be beat; a quad-frame body made with ultra-strength steel gives it a reassuring rigidity. In fact, 79.2% of the body-chassis is high-density, high-tensile-strength steel.

ELECTRONIC BRAKEFORCE DISTRIBUTION ANTI-LOCK BRAKE SYSTEM

EBD-ABS distributes brake force appropriately to the front and rear wheels according to the vehicle's load of passengers and/or cargo.

ELECTRONIC STABILITY PROGRAMME

ESP constantly monitors road conditions and vehicle status and automatically adjusts engine output and braking whenever the driver is about to lose control. It integrates the ABS, active rollover protection, anti-slip regulation and brake force assist.

BRAKE ASSIST SYSTEM

BAS automatically activates full braking in an emergency to reduce the vehicle's braking distance to help avoid an accident.

AIRBAGS

Musso has 6 airbags for the greatest possible protection in the event of a sudden stop.

1. Driver's seat airbag
2. Passenger's seat airbag
3. Side curtain airbags in 1st row x 2
4. Curtain airbags x 2

ISOFIX

Musso has an Isofix point on both outer rear seats, ensuring ultimate safety for children travelling in the rear.

MUSSO EX

- 17" alloy wheels
- DAB radio with Bluetooth connectivity
- 6 airbags
- Full size spare tyre
- Manual air conditioning
- Power windows
- Remote central locking
- Smart-key system with push button start
- Rain sensing wipers
- Automatic headlight control

MUSSO REBEL

- As EX +
- 18" alloy wheels
- Black & silver roof rails
- Apple CarPlay & Google Android Auto
- 8" smart audio screen with rear-view camera & Bluetooth connectivity
- TPU leather look seats
- Heated and ventilated front seats
- Heated steering wheel
- Black and silver side steps
- Rebel graphics

MUSO SARACEN

- As Rebel +
- Premium nappa leather seats
- Power adjustable front seats with power lumbar
- Heated rear seats
- 9.2" HD screen with TomTom navigation, rear view camera & Bluetooth connectivity
- Apple CarPlay & Google Android Auto
- Electronic cruise control (auto only)
- Front and rear parking sensors
- Saracen graphics

MUSO RHINO

- As Saracen +
- 17" alloy wheels with 235/70R17 XL tyres
- Biggest pick-up bed available
- Automatic dual zone air conditioning
- Lane change assist
- Blind spot detection
- Rear cross traffic alert
- Rhino graphics

WARRANTY

Even with a sturdy and reliable pick-up that owns the road, you still want the peace of mind of a competitive warranty. That's why Musso isn't just good, it's the best. You're covered for 7 years or 150,000 miles – whichever comes first.

That's over 20,000 miles per year for the length of the warranty. We're calling it unmatched – and it is.

You'll feel confident on the road, and confident with the best warranty in the UK. It's win-win.
