All vehicles are RDE2 compliant

^Electric range up to 206 miles under WLTP'.

CO₂ figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO₂ figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BIK%. The addition of optional extras could increase the certified CO₂ emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable.

For further information on CO₂ and pricing for vehicles with optional equipment, please visit www.peugeot.co.uk and configure your chosen vehicle with your preferred options.

Figures shown are for comparison purposes and should only be compared to the fuel consumption, electric range and CO₂ values of other cars tested to the same technical standard.

The fuel consumption or electric range achieved, and CO₂ produced (where applicable), in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); the starting charge of the battery (electric only); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption, electric range and CO₂ figures. 'On the Road' MRRP includes registration plates and delivery to retailer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.

*** Prices include Plug-In Car Grant (PICG) from government of £3,000.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

ALL-NEW PEUGEOT 2008 RANGE

REINVENTING THE DRIVING EXPERIENCE

For further information visit our website at peugeot.co.uk or contact your local PEUGEOT Retailer

PEUGEOT i-Cockpit®

The PEUGEOT i-Cockpit® philosophy centres around a driving environment that puts you in control, allowing a greater connection to the road. For all-new PEUGEOT 2008, the PEUGEOT i-Cockpit® brings driving resolutely into a new age. The PEUGEOT i-Cockpit®, comprises of the following key features:

8-colour personalisable ambient lighting

Choose your ambient lighting:

Green Teal Blue White Cream Orange Red Pink

Configurable 3D head-up digital instrument panel

Standard from Allure Premium trim level, the all-new PEUGEOT 2008 3D i-Cockpit® cluster is a unique system that projects all the information on different layers giving you outstanding 3D effect. It can be fully customised to suit the driver's needs. As the panel is positioned higher, it is closer to the road and is more within the driver's field of vision. This can increase safety when compared to a conventional setup where the dials sit within the wheel, further from the road.

The digital speedometer

The crisp and colourful graphics within the instrument panel can be adapted to give a variety of display modes including:

- **'Dials'** mode: a classic view to replicate the analogue set-up of most modern cars
- **'Navigation'** mode: turns the dials on their sides to a 'roller' format, 3D navigation with instructions fill the centre of the display
- **'Driving'** mode: with 'roller' format dials and driver assistance information including Lane Keeping Assistance (LKA) and Adaptive Cruise Control with Stop & Go (ACC Stop)

In addition to the above, two 'Personal' modes can also be configured to allow the driver to see the exact information they require, for optimum comfort.

The all-new 2008 display modes

Personalised ambient lighting

8-colour personalisable ambient lighting (standard from GT)

Live the power of choice in the all-new PEUGEOT 2008 thanks to the personalisable ambient lighting. 8 colours are available to make sure that whatever your mood is, the 2008 matches it perfectly. For example, you can select the red ambient lighting for a more dynamic experience, or blue for a more serene experience.

ALL-NEW PEUGEOT 2008 RANGE

REINVENTING THE DRIVING EXPERIENCE

PEUGEOT i-Cockpit®

Compact multi-function steering wheel

Compact dimensions coupled with a re-designed shape enhance every journey in all-new PEUGEOT 2008. Out on the road the compact dimensions increase the visibility of the car's instruments whilst in the corners it provides heightened responses and improved agility.

When it comes to round town or navigating car parks its compact dimensions make light work of wheel winding to manoeuvre into a space. In terms of finish all models are trimmed with Mistral full-grain leather with stitch detail. GT and GT Premium models benefit further from Lime Green stitching, perforation detail and a satin chrome 'GT' designation badge.

7.0" high definition (HD) capacitive colour touchscreen (standard)

With crystal clear graphics, the 7.0" capacitive colour touchscreen houses several key technological features of the all-new PEUGEOT 2008. Capacitive technology helps to give Smartphone levels of responsiveness whilst multi-touch technology brings greater levels of functionality. In keeping with the PEUGEOT 3D i-Cockpit® theme, the touchscreen is angled towards the driver.

The touchscreen features easy access buttons on each side as well as stylish 'piano' key toggle switches on the centre console to use the wealth of functionality available:

- Climate control
- DAB Radio (Digital Audio Broadcasting)
- Mirror Screen®: with Apple CarPlay™ and Android Auto connectivity
- PEUGEOT Connected 3D Navigation, includes 3 year subscription to Connected Navigation Pack services, including Real Time Traffic and Speedcam*^ (standard from GT)

*Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

For further information visit our website at peugeot.co.uk or contact your local PEUGEOT Retailer

10.0" high definition (HD) capacitive colour touchscreen (standard from GT)

The 10" touchscreen gives you a wider panoramic view and integrates directly the climate controls on each side. A second row of 'piano' key toggle buttons also features in the centre console to make sure you can access as quickly as possible all the functionality of the all-new PEUGEOT 2008.

Electric Impulse Automatic Gearbox Control (standard on auto versions)

Linked to the Efficient 8-Speed Automatic Transmission (EAT8) with Quickshift Technology. This stylish gearbox control with its ergonomic design complements the PEUGEOT i-Cockpit®. Trimmed with full-grain leather, satin chrome and piano black materials, this compact gearbox control even helps to free up space within the cabin.

Operation is intuitive and smooth, and for the more exuberant driver a manual driving mode is also available with changes performed seamlessly via the steering column mounted paddles.

Piano key toggle switches

Electric Impulse Automatic Gearbox Control

SAFETY TECHNOLOGY

Active Safety Brake System

Active Safety Brake System (standard on all versions)

An intelligent autonomous braking system designed to avoid a collision or limit its severity by reducing the vehicle's speed. The system is triggered if the driver does not react quickly enough, by activating the vehicle's brakes.

Using a bumper mounted radar and multifunction camera located at the top of the windscreen able to detect obstructions on the road. The system works in the following ways, both day and night:

- Between 0 and 18mph, collision avoidance for fixed and moving obstacles and pedestrians
- Beyond 18mph limiting the severity of an impact by reducing the vehicles speed by at least 12mph before impact

Distance Alert System (standard on all versions)

Working in conjunction with the Automatic Emergency Braking System, the distance alert function warns the driver if the vehicle risks a collision with the vehicle in front or a pedestrian in the road.

Two levels of warning are available, the first 'Amber' warning provides a visual alert to the potential risk. In a more severe instance a 'Red' visual and audible alert indicate a collision is imminent and driver action is required, failure to act triggers the Automatic Emergency Braking System.

Active Blind Spot Detection (ABSD) (standard from GT)

Using lateral ultrasound sensors to cover areas out of your field of vision along with the windscreen mounted camera, an LED illuminates in either side door mirror to alert to the presence of a car, lorry, motorbike or bicycle in your blind spot. The system works when overtaking a slower vehicle or when overtaken by a faster vehicle.

In addition ABSD also features a trajectory correction system in partnership with Active Lane Keeping Assistance. The trajectory correction is applied to the steering if a line is crossed even when the turn indicator is enabled, to try and avoid a collision with an obstacle not detected by the driver.

Active Blind Spot Detection

Adaptive Cruise Control

PEUGEOT Connect SOS & Assistance (standard on all versions)

A vehicle locating communication unit, this feature can be used manually (dedicated SOS button on the console) or automatically (if pyrotechnic devices are deployed). It locates the vehicle precisely and triggers the sending of the appropriate emergency services for a rapid response.

PEUGEOT are the pioneers of this technology and since launching in 2003 PEUGEOT Connect SOS & Assistance has assisted over 7,000 individuals. The system is subscription free with no additional charges and uses a GPS module and SIM card (built in to the system).

Adaptive Cruise Control with Stop and Go (ACC Stop and Go) (standard on GT Premium automatic and electric versions)

Cruise control as you know it, will never be the same again with all-new PEUGEOT 2008. Controlled via a radar mounted at the front of the vehicle, the ACC Stop and Go system provides two key functions:

- Automatic maintenance of the vehicles speed, at the value set by the driver
- Automatic maintenance of a set distance between all-new PEUGEOT 2008 and the vehicle in front, slowing the vehicle to a stop if required and then moving off automatically when conditions allow

The system detects a vehicle driving in front in the same direction and can automatically adapt the vehicle's speed to that of the vehicle in front. This occurs using engine braking and the braking system (in which case the brake lights are lit) to maintain a constant distance.

When activated, ACC Stop and Go also incorporates Lane Positioning Assist, to position the car centrally within its lane, particularly useful for motorway driving.

ACC 30 can be added as an option to Allure Premium and GT with manual gearboxes, this incorporates the distance and braking capabilities of ACC Stop and Go but does not slow the vehicle to a stop. ACC 30 can reduce speeds to a minimum of 18 mph (30 km/h), to prevent the vehicle from stalling.

ALL-NEW PEUGEOT 2008 RANGE

REINVENTING THE DRIVING EXPERIENCE

SAFETY TECHNOLOGY

Lane Keeping Technologies

Lane Keeping Technologies

Via a windscreen mounted camera all-new PEUGEOT 2008 offers the following lane keeping technologies:

Active Lane Keeping Assistance (LKA) + Road Edge Detection (standard on all versions) a system that monitors longitudinal lane markings on the ground. If a deviation is detected across a lane marking, you are alerted by a flashing indicator on the digital instrument panel in the cabin.

In addition as soon as the system identifies a risk of accidentally crossing one of the marking lines detected on the ground, the steering is gradually corrected to keep the vehicle in lane, at speeds of over 40mph. For further peace of mind, road edge detection is also included to reduce the likelihood of the vehicle leaving the road in an accident.

Lane Positioning Assist (Standard on GT Premium automatic and electric versions) linked to Adaptive Cruise Control with Stop and Go function. This intelligent system positions the car centrally with the middle of a lane, applying left and right trajectory corrections accordingly.

Speed Limit Recognition

Speed Limit Recognition and Recommendation (standard on all versions)

Using the windscreen mounted camera, all-new PEUGEOT 2008 features speed limit sign recognition, leaving you in no doubt over the speed limit. Upon detecting a speed limit sign this information is read by the camera and displayed in colour on the head-up digital instrument panel.

In addition the driver also has the option to adapt their speed to the speed limit on the particular road via the vehicles cruise control stalk. The vehicle will then adjust its speed accordingly.

Road Sign Recognition and Recommendation (standard on all versions)

In addition to speed limit recognition, all-new 2008 can also read and interpret various road signs, including 'Stop', 'One Way' and 'No Overtaking'. These are then relayed through the head-up digital instrument panel, in plain view of the drivers line of sight, reducing the chance of a road instruction being missed.

Driver Attention Alert

Driver Attention Alert

To help keep you alert behind the wheel, all-new PEUGEOT 2008 features a two stage driver alert system for added safety on the road, comprising:

Driver Attention Alert 3 (DAA3): (standard from Allure onwards) controlled by a camera at the top of the windscreen designed to analyse the vehicles trajectory, this active system evaluates the vigilance of the driver at speeds of over 40mph.

By identifying deviations relative to the road markings, all-new PEUGEOT 2008 is able to determine whether the vehicle's behaviour reflects a certain degree of driver drowsiness or inattention. If it is felt that the driver needs to take better care on the road a visual and audible alert will occur. If more than three instances occur, the driver will be advised to take a break.

Smartbeam Assistance

PEUGEOT Smartbeam Assistance (standard on GT and GT Premium)

PEUGEOT Smartbeam Assistance gives you one less thing to think about when driving at night. Controlled via a windscreen mounted camera, the system continuously analyses driving conditions, for instance the proximity of other vehicles.

PEUGEOT Smartbeam Assistance automatically switches headlights to full beam when conditions allow, allowing you to tap into the full potential of the full LED headlights.

ALL-NEW PEUGEOT 2008 RANGE

REINVENTING THE DRIVING EXPERIENCE

INNOVATIVE TECHNOLOGY

Smartphone Charging Plate

Smartphone Charging Plate (Standard on GT & GT Premium)

Through the use of inductive charging technology a compatible device can be charged wirelessly whilst on the move. Operation is simple: just place your compatible smartphone on the charging area, once detected, battery charging begins. The device must be Qi-compatible, the very latest smartphones from iPhone, Google, HTC, LG, Microsoft, Motorola, Samsung and Sony feature this technology built in with no additional add-on required.

For more information on this technology please visit the Qi website.

Mirror Screen®

Mirror Screen® (standard on all versions)

Allows the mirroring of a compatible smartphone screen to access the key functionality on the handset. Once paired, functions are displayed on the 7.0" and 10.0" capacitive colour touchscreen systems. System features vary by provider/phone and can include navigation, text display, text reading, media functionality voice control. Mirror Screen® uses the following systems:

- **Apple CarPlay™****
- **Android Auto****

*For further information on Apple CarPlay™ and smartphone compatibility please visit: <https://www.apple.com/ios/carplay/>

**For information on Android Auto and smartphone compatibility please visit: <https://www.android.com/auto/>

Panoramic Opening 'Spoiler' Sunroof (Standard on GT Premium)

Enjoy the outside world with all-new PEUGEOT 2008 panoramic opening sunroof. Bathing the cabin in natural light, the panoramic glass roof enhances the appearance of the all-new PEUGEOT 2008.

A manual blind is also included.

ALL-NEW PEUGEOT 2008 RANGE

REINVENTING THE DRIVING EXPERIENCE

INNOVATIVE TECHNOLOGY

In addition to the rear parking sensors (Standard across the range), the all-new PEUGEOT 2008 features the following driving assistance:

Visio Park 1 (Standard from Allure)

In addition to rear parking sensors, the rear camera offers a variety of views including rear 'Grid' view, '180°' view, useful for reversing out of spaces and an 'Overhead' view making it easier when reversing near obstacles.

Semi-Automatic Park Assist (Optional on GT & GT Premium)

In addition to Visio Park 1, this includes semi-automated parking assistance, taking care of steering for parallel and bay parking.

PEUGEOT Connected 3D Navigation* (Standard from GT)

Linked to either the 7.0" or 10.0" high definition (HD) capacitive colour touchscreen, the system includes European mapping, 3D city mapping and voice recognition (for radio, navigation and telephone functions).

The system also includes a 3 year subscription^ to Connected Navigation Pack services, including Real Time Traffic and Speedcam*. Key features are:

- **Real Time Traffic & Speedcam** Real-time updates on traffic conditions (traffic jams, road works, suggested alternative routes and Speed Camera / Danger Zone warning)
- **Local Weather** Displays forecasted weather conditions along the route
- **Fuel Stations** Displays nearby fuel stations and pricing
- **Local search** Access address and contact detail information for a point of interest

*Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

Connected 3D Navigation

ALL-NEW PEUGEOT 2008 RANGE

A MODERN AND BOLD VISION

For further information visit our website at peugeot.co.uk or contact your local PEUGEOT Retailer

EXTERIOR STYLE

Front

With a striking exterior design, all-new PEUGEOT 2008 does not fail to make its presence known.

At the front, bold details are everywhere to be seen. The sharp headlights, fitted with Eco LED (from Active Premium) or full LED technology (from GT) echo the striking bodywork design. The commanding vertical LED daytime running lights that frame the front of the car with beautiful symmetry, take inspiration from the PEUGEOT Instinct concept car. Adding further to the design, full LED headlights come with the distinctive 3-claw design.

Three prominent front grille designs are available according to version, chrome facets (from Active Premium level), dark chrome chequered (from GT) and colour-coded chequered (Electric versions).

Profile

In profile the silhouette of all-new 2008 comes to life, and striking details include:

- Gloss black diamond roof (from GT) and door mirror shells presenting a sporty bi-tone effect
- Dark tinted rear side and tailgate windows (from Allure) complete with gloss black window surround (from GT)
- Alloy wheels (depending on version) range from 16" to 18", including intricate diamond cut and tinted varnish detailing. The sporty SUV style is reinforced by the black wheel arch extensions that are standard across the range.

Rear

- LED Rear lighting including 'always on' 'Claw Effect' light design, LED indicators and twin reversing lights
- Gloss black rear cluster connecting strip incorporating the PEUGEOT lettering, framed by the rear light clusters, further enhances the distinctive rear design
- On Petrol/Diesel, prominent exhaust pipes dependent on the trim level. As standard from GT, a chrome exhaust system on every derivative as well from Allure trim level in conjunction with the 1.2L PureTech 130 S&S models
- Rear bumper diffuser trim finished in gloss black (from Allure) adds further to the sports design.

ALL-NEW PEUGEOT 2008 RANGE

A MODERN AND BOLD VISION

EXTERIOR STYLE: LED TECHNOLOGY & BADGING

Badging

The sculpted bonnet is headed by the '2008' inscription, taking inspiration directly from the iconic PEUGEOT 504 & 504 Coupé.

The Lion is available with a different finish: chrome and brushed aluminium for the Petrol/Diesel versions or a special dichroic treatment on the Electric version which changes colour from different angles.

Full LED Headlights (Standard from GT)

Full LED Headlights: Light Emitting Diode (LED) technology remains a rare feature in the car industry, with all-new PEUGEOT 2008 however this is not the case. Full LED headlights feature from GT, allowing you to enjoy the following benefits:

- LED technology consumes considerably less energy to produce light, 50% less than halogen and 35% less than xenon technologies
- LED technology offers a whiter light for improved visibility at night, the light is also more similar to daylight, leading to reduced driver eye fatigue, improving safety
- LED technology requires no warm up time with instantaneous lighting response when compared to conventional halogen technologies
- LED technology will last for the life of the car, compared to halogen technology with much shorter life expectancy
- LED technology offers a very striking visual signature that perfectly complements the sharp exterior design

In addition, LED lighting technology is also used for both braking and indicating functions.

ALL-NEW PEUGEOT e-2008 RANGE

FULL ELECTRIC WITHOUT COMPROMISE

LIVE THE POWER OF CHOICE

The all-new PEUGEOT 2008 is not only available with a choice of petrol or diesel powertrains but is also available as an 100% electric vehicle.

The all-new PEUGEOT e-2008 features the following key elements:

TECHNICAL

Electric 50 kWh 136hp motor

The all-new PEUGEOT e-2008 offers a lively and stimulating drive thanks to its 100% electric powertrain. You benefit from immediate reactivity with 260Nm of torque from 0mph. The silent engine offers a serene* drive without vibration.

e-CMP platform

The new e-CMP platform has been developed to incorporate a high voltage battery whilst preserving space on board and boot volume. Particular attention was given to weight reduction and balance to make sure the driving experience in the all-new PEUGEOT 2008 is as rewarding as possible.

Range Up to 206 miles WLTP

Charging flexibility with 3 modes available:

Domestic (AC): 10A /3kWh from a regular socket, full charge in 24 hours (accessory cable needed).

Fast (AC) 32A / 7kWh from a Wall Box, full charge in 7.5 hours.

Rapid (DC) 100kWh from a dedicated public terminal, 80% charged in 30 minutes.

USAGE

3 driving modes

In the all-new PEUGEOT e-2008 you will be able to chose between 3 driving modes:

- Sport: priority given to performance (0-60 in 8.5s)
- Normal: daily usage
- Eco: priority given to range

2 braking modes

The all-new PEUGEOT e-2008 also benefits from 2 braking modes that helps you make the best of your range:

- Moderate: sensation similar to an ICE engine
- Increased: deceleration controlled with accelerator pedal

Specific animations

The all-new PEUGEOT e-2008 features specific technological animations and menus on the touchscreen so that you can access easily all the information needed.

*Take care when driving as other road users may not be accustomed to electric vehicles. All-new PEUGEOT e-2008 SUV is fitted with an acoustic vehicle alerting system operating at speeds up to 18 mph.

For further information visit our website at peugeot.co.uk or contact your local PEUGEOT Retailer

e-Common Modular Platform

Specific EV animations and menus on the colour touchscreen

Electric 50 kWh 136hp powertrain

ALL-NEW PEUGEOT e-2008 RANGE

EV SERVICES & STYLING

EXTERIOR STYLING

The all-new PEUGEOT e-2008 comes with distinctive and exclusive touches, a body coloured chequered front grille with gloss black edge trim.

The Lion logo featuring a specific dichroic treatment which changes colour from different angles depending on the exterior lighting.

An 'e' monogram on the front side panel and tailgate.

MYPEUGEOT® APPLICATION

- Charge management: Control, plan, launch and check the vehicle's charge remotely
- Climate preset: Remotely plan and control the heating or air conditioning in the interior of your car
- e-Coaching: Consumption logs and statistics

Home charging

The all-new PEUGEOT e-2008 comes with a Mode 3, Type 2, 6m cable as standard, which will charge the vehicle in 7.5 hours on a 7kW charging point. We recommend installing a wallbox at home and PEUGEOT will refer you to their specialist charging partner, who are fully approved for the £350 (or 75%) homecharge grant from government.

Charging Pass

PEUGEOT will provide access to certain UK public charging points through a free subscription for an introductory period.

*Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation, additional costs may apply

The fuel consumption or electric range achieved, and CO₂ produced (where applicable), in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); the starting charge of the battery; variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption, electric range and CO₂ figures.

Figures shown are for comparison purposes and should only be compared to the fuel consumption, electric range and CO₂ values of other cars tested to the same technical standard.

[^] 'LOW': Low speed city driving, representative of city centre driving, maximum 35mph.

^{^^} 'MEDIUM': Medium speed town driving, representative of town or suburban driving, maximum 50mph.

^{^^^} 'HIGH': High speed rural driving, representative of A-road or dual carriageway driving, maximum 60mph.

^{^*} 'EXTRA HIGH': Extra High speed motorway driving, representative of a typical European motorway, maximum 81mph.

^{^^^} 'COMBINED': A mixed journey average of all elements.

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

SERVICE CONTRACTS

For further information visit our website at peugeot.co.uk or contact your local PEUGEOT Retailer

PEUGEOT OFFER TWO LEVELS OF SERVICE PLAN CONTRACTS

What's included:

- PEUGEOT Service Plans offer complete assurance that all your servicing costs will be completely covered for the duration of the plan
- We offer PEUGEOT Service Plans for up to five years with many mileage options
- One-off up front or monthly direct debit payment options available
- All packages are affordable and inflation proof, which means they will remain at a fixed cost for the duration of the plan

Monthly price examples*:

All-new 2008

| 36 Months / 30,000 Miles | 48 Months / 40,000 Miles | 60 Months / 50,000 Miles |
|--------------------------|--------------------------|--------------------------|
| £12.53 | £16.13 | £16.74 |

All-new e-2008

| 36 Months / 30,000 Miles | 48 Months / 40,000 Miles | 60 Months / 50,000 Miles |
|--------------------------|--------------------------|--------------------------|
| £8.86 | £13.07 | £13.57 |

*Price examples based on an annual mileage of 10,000 per annum.

A PEUGEOT Service Plan can be purchased up to 12 months after registration date. The prices quoted above are indicative, for a bespoke quote please contact your local PEUGEOT Retailer. If the plan is taken out after the date of registration an additional payment will be required to cover this starting period.

Any normal wear and tear maintenance work such as replacement of tyres, brake pads, brake discs, clutches, shock absorbers, wipers, batteries, bulbs, silencer, exhausts and windscreens are excluded. Servicing must be carried out by a PEUGEOT Authorised Repairer in the UK. PEUGEOT Motor Company reserve the right to change, amend or withdraw this product at any time.

EXTENDED PEUGEOT ASSISTANCE*

What's included: Extension of your PEUGEOT Assistance Cover:

- Offers you the opportunity to extend PEUGEOT Assistance up to a further two years

Cover includes:

- PEUGEOT Assistance from Home
- PEUGEOT Roadside Assistance
- PEUGEOT Recovery
- PEUGEOT Onward Travel
- PEUGEOT European Cover

*Excludes non-vehicle induced faults.

ALL-NEW PEUGEOT 2008 RANGE

ADBLUE®

For further information visit our website at peugeot.co.uk or contact your local PEUGEOT Retailer

HOW DOES THE PROCESS WORK?

All PEUGEOT models equipped with BlueHDi engine technology are fitted with SCR technology (Selective Catalytic Reduction) and particulate filtration to treat exhaust gases.

The process specifically targets the pollutants of diesel combustion, removing hydrocarbons and carbon monoxide, reducing nitrogen oxides by up to 90% and eliminating 99.9% of particulates.

To allow treatment of nitrogen oxides (NOx) emissions, PEUGEOT passenger cars powered by BlueHDi engine technology are fitted with a separate AdBlue® tank to hold the solution. In most instances this tank is around 17 litres in size. AdBlue® like fuel and screenwash is treated as a consumable and must be kept regularly topped up. Various factors can affect consumption of AdBlue® including but not limited to driving style, weight carried in the vehicle and environmental factors.

| PEUGEOT MODEL | ADBLUE® TANK SIZE | TANK LOCATION | TOP UP REQUIRED |
|---------------|-------------------|-------------------------------------|---|
| ALL-NEW 2008 | 17 LITRES | DRIVERS SIDE, UNDER FUEL FILLER CAP | AROUND 3,500 MILES/ AFTER 7 FUEL FILL-UPS |

THIS OCCURS DURING A THREE STAGE PROCESS

Stage One

The oxidation catalytic converter eliminates the hydrocarbons (HC) and the carbon monoxide (CO), transforming them into water (H2O) and carbon dioxide (CO₂).

Stage Two

The SCR (Selective Catalytic Reduction) transforms the nitrogen oxides (NOx) into water (H2O) and nitrogen (N₂), which is the main constituent of air (78%), due to the addition of AdBlue® (mixture of urea and water).

Stage Three

The Particulate Emission Filter eliminates 99.9% of the particulates by number, leaving just harmless water (H2O) and nitrogen (N₂) gases to be emitted from the exhaust.

ALL-NEW PEUGEOT 2008 RANGE

ADBLUE®

For further information visit our website at peugeot.co.uk or contact your local PEUGEOT Retailer

TOPPING UP ADBLUE®

To prevent your PEUGEOT running out of the AdBlue® additive the car is fitted with a low level detection facility, just as would be the case with fuel. A series of notifications are available but where the AdBlue® range exceeds 1,500 miles (2,400 km), no information range is automatically displayed.

Remaining range between 1,500 and 500 miles (2,400 and 800 km)

When switching on the ignition, the orange warning lamp (as shown on the left) comes on for about thirty seconds, accompanied by the display of a message (Top up AdBlue: Starting prevented in x miles/km) indicating the remaining range expressed in miles or kilometres. The reserve level has been reached; it is recommended that you top up as soon as possible.

Remaining range between 500 and 62 miles (800 and 100 km)

When switching on the ignition, this warning lamp comes on, accompanied by an audible signal (1 beep) and the display of a message (e.g. Top up AdBlue: Starting impossible in x miles) indicating the remaining range expressed in miles or kilometres. When driving, the audible signal and the message display are triggered every 62 miles (100 km) until the level is topped up.

It is essential to top up as soon as possible and before the tank is completely empty; otherwise it will not be possible to restart the engine after the next stop.

Remaining range less than 62 miles (100 km)

When driving, the audible signal and the message display are triggered every 6 miles (10 km) until the AdBlue tank is topped up. It is essential to top up as soon as possible and before the tank is completely empty; otherwise it will not be possible to restart the engine after the next stop.

IMPORTANT POINTS

- If your vehicle's AdBlue® tank is completely empty – which is confirmed by the alert messages and the impossibility of starting the engine – you must add at least 5 litres of AdBlue® solution
- Never pour AdBlue® into the Diesel fuel tank
- If any AdBlue® is splashed, or if there are any spillages on the side of the body, rinse immediately with cold water or wipe with a damp cloth
- If the fluid has crystallised, clean it off using a sponge and hot water
- Keep AdBlue® out of the reach of children, in its original container
- Never store AdBlue® containers in your vehicle
- Use only AdBlue® fluid that meets the ISO 22241 standard
- Never transfer AdBlue® to another container: it would lose its purity
- Never dilute AdBlue® with water
- Important: in the event of a top-up after an AdBlue® breakdown, you must wait about five minutes before switching on the ignition, without opening the driver's door, unlocking the vehicle or bringing the electronic key into the passenger compartment

*Applies to diesel vehicles that do not meet the real driving emissions step 2 (RDE2) standard. VAT is calculated at 20%. VAT is not applicable to cars sold in the Channel Islands. Cars with a list price of over £40,000 when new pay an additional £325 per year on top of the £150 annual tax 'standard rate', for five years after the end of the first licence before returning to the rates listed above. This supplement does not apply to electric vehicles.

PEUGEOT 3 YEARS OF WARRANTY

All vehicles first registered in the UK and purchased from a UK PEUGEOT Retailer benefit from a PEUGEOT 2 year unlimited mileage manufacturer's warranty and a free optional additional 1 year of warranty provided by the PEUGEOT Retailer Network in the UK. The traction battery of Electric Versions is covered by an 8 Year / 100,000 mile warranty.

PEUGEOT ASSISTANCE

All new PEUGEOTs come with PEUGEOT Assistance, our breakdown assistance service.

PEUGEOT Assistance is available every minute of the day and night; 365 days of the year, for you and anyone else driving your PEUGEOT with your permission.

Full details are available at www.peugeot.co.uk
