

Trucks for life.

A guide to the Isuzu truck range

From the world's leading commercial vehicle diesel engine manufacturer.

ISUZU
TRUCK 

Join the Isuzu family.

When you step into an Isuzu truck, you're entering a world of innovation and experiencing a heritage that stretches back further than any other Japanese vehicle manufacturer. The engineers at the heart of our company have invested thousands of hours of research and development into engineering a range of light commercial vehicles that meets the needs of all customers, no matter what their operation or how large or small their business.

Every Isuzu truck that comes off the production line in our Fujisawa plant is designed to help you improve efficiency and reliability while reducing operating costs. Simply put, our trucks truly are built around the people who matter most: our customers.

Driven by **100 years** of Japanese innovation.

Since being founded in 1916, Isuzu has continually been at the forefront of truck evolution, introducing several iconic models now renowned for their build quality, outstanding performance and reliability. As a result of Isuzu's mission to become the global leader in commercial vehicles, companies in over 120 countries now rely upon Isuzu trucks to carry out their day-to-day business operations. In the United Kingdom, Isuzu Truck UK has been serving Isuzu customers since 1996.

Building / Landscaping
Recovery / Haulage

The right truck for your **industry.**

Companies of all sizes, across many different industries, trust our trucks to help grow their businesses. Whatever your trade, we've got a truck to help you build and grow for years to come.

Building. Whether you need a 3.5t tipper or a 7.5t dropside for your building business, we've got a truck to suit your requirements. Our most popular pre-bodied vehicles are available to drive away from your local dealership.

Recovery. As one of the first industries to truly embrace Isuzu vehicles in the UK, the recovery sector has always been close to our heart. From day one we've worked with recovery operators to ensure that our vehicles enable them to work as safely and efficiently as possible.

Landscaping. Landscape gardening and arboriculture companies large and small trust our trucks to help grow their businesses. If it's reliability and payload capacity you need for your everyday operations, you can rely on Isuzu.

Haulage. Whether you need to deliver pallets, plant equipment or refrigerated goods, we'll help you find a truck that suits your requirements. With a range of payload efficient chassis specifications available, our vehicles will help you get the job done in as few trips as possible.

Overview 3.5t to 5.5/6.5t.

ISUZU
TRUCK 

7.5 tonne

Available with either a 3.0 litre, 150PS engine for town and city driving, or a 5.2 litre, 190PS engine for regular main road and motorway journeys, our N75 is the truck of choice for a wide range of companies across numerous different industries.

Model:	N75.150	N75.190
Gross Vehicle Weight:	7,500kg	7,500kg
Gross Train Weight:	11,000kg	11,000kg
Transmission:	Manual or Easyshift	Manual or Easyshift
Engine:	150PS	190PS
Capacity:	3.0 litre diesel	5.2 litre diesel
Cab Colour:	White	White

11/13.5 tonne

The compact cab and low chassis design of our 11t and 13.5t trucks means they're often mistaken for 7.5 tonners when out on the road. But a 'big truck' interior – complete with our Easyshift automatic transmission – and impressive payload allow these vehicles to punch well above their weight.

Model:	F110.210	F135.240
Gross Vehicle Weight:	11,000kg	13,500kg
Gross Train Weight:	14,500kg	17,000kg
Transmission:	Manual or Easyshift	Easyshift
Engine:	210PS	240PS
Capacity:	5.2 litre diesel	5.2 litre diesel
Cab Colour:	White	White

The 3.5t Grafter is a light truck that's more than capable of handling a busy workload. Builders, landscape gardeners, arborists and other contractors rely on the Grafter to pull its weight on site day in, day out, and its performance more than lives up to its name. The Grafter is so popular, in fact, that it has been named Best Builders' Truck seven years in a row by leading commercial vehicle publication *Trade Van Driver*.

There are two models in the Grafter range: the 1.9 litre, 123PS Grafter Green (N35.125), and the 3.0 litre, 150PS Grafter Blue (N35.150). Both trucks come with single or twin rear wheels, are capable of towing 3.5 tonnes and are available with short lead times as part of our Driveaway range.

For customers who need more payload but still want the compact cab and body design of our award-winning Grafter range, a 5.5t or 6.5t truck could be the answer. Popular with arborists, breweries and local authorities, our N55 and N65 models offer a step up in payload carrying capacity without the extra size and weight normally associated with larger trucks. The N55 even has a narrow cab option, while the N65 comes with either a standard manual gearbox or our popular Easyshift automated transmission.

We are proud to be market leaders in a number of key sectors at 7.5 tonnes, including the recovery sector, which has always been close to our heart. For the last two decades our 7.5 tonners have offered UK operators outstanding payload carrying capacity combined with unbeatable reliability, making them ideal for distribution, local delivery, plant hire and a number of other weight-critical applications.

Our N75 Forward range includes standard day cab and crew cab versions of our popular 5.2 litre N75.190 truck, as well as manual and Easyshift options. For customers who carry out low mileage, urban deliveries, the N75.150, which features a more efficient 3.0 litre engine, may be a better option.

Our F-Series 11t and 13.5t trucks offer 'big truck' performance with a 'small truck' footprint. Even with their higher payload capacities, these trucks can still operate in the most demanding of locations. Our 11 tonner is well suited to tipper and beavertail operations, but still benefits from a compact cab and lower chassis design for driver comfort. At 13.5 tonnes, we offer an Easyshift vehicle that's ideal for scaffolders and box or curtainside applications.

Both our 11t and 13.5t trucks are the ideal step up from our N-Series vehicles, offering a lightweight option at the heavier weight ranges.

Drive away today.

How frustrating is it when you have to wait to replace something that's a key part of your job? Whether it's a drill, chainsaw, wheelbarrow or laptop, there are some tools you just can't live without. We know your truck is no different, which is why we've partnered with some of the UK's leading bodybuilders to bring you a range of vehicles available at short lead times.

Our 'Driveaway' range includes vehicles at 3.5t and 7.5t with a number of our most popular body configurations, from dropsiders and tippers to boxes and curtainsiders. Discover our Driveaway vehicles today and find out how you can save your business time and money with an Isuzu truck.

Driveaway Range.

3.5 tonne TIPPER

MODELS IN THIS RANGE: N35.125(S) TIPPER |
N35.125(T) TIPPER | N35.150(T) TIPPER

A reliable tipper can quickly become one of your business's most valuable assets. Designed to withstand the rough and tumble of daily life on site, our 3.5t tippers are reliable workmates that can cope with pretty much anything you can throw at them.

7.5 tonne TIPPER

MODELS IN THIS RANGE: N75.150(E) TIPPER |
N75.190(E) TIPPER.

The bigger brother of our popular 3.5t tipper, our 7.5t tipper is an efficient and reliable workhorse with an impressive payload capacity. Its compact design makes it easier to manoeuvre than many other vehicles in its weight range, and its automated Easyshift gearbox is designed to minimise driver fatigue.

Driveaway Range.

3.5 tonne DROPSIDER

MODELS IN THIS RANGE: | N35.125(T) DROPSIDE

Available in two different body lengths, our lightweight driveaway dropside trucks are both versatile and reliable, offering our customers the kind of adaptability they have come to expect from Isuzu trucks. Landscape gardeners, scaffolders and plant hire companies are already enjoying the benefits of our driveaway dropside trucks.

7.5 tonne DROPSIDER

MODELS IN THIS RANGE: N75.150(E) DROPSIDE |
N75.190(E) DROPSIDE.

At 7.5 tonnes, our double dropside bodies give good flexibility for various transportation requirements and are available in both 150 and 190 chassis options. With a payload capacity from 4,000kg, our 7.5 tonne dropside trucks can cope with even the most demanding of loads.

Driveaway Range.

3.5 tonne TIPPER WITH TOOLPOD

MODELS IN THIS RANGE: N35.125(T) UTILITRUCK

The latest vehicle to join our Driveaway range is the 3.5t Utilitruck, which features a lockable toolpod to keep tools and equipment safe. Suitable for a variety of different applications, our Utilitruck does the job for companies that require a tipper with added security for equipment throughout the working day.

Driveaway Range.

7.5 tonne BOX

MODELS IN THIS RANGE: N75.190(E) BOX COLUMN |
N75.190(E) BOX TUCKAWAY

7.5t Isuzu boxes form the backbone of many of our customers' delivery fleets. Available with column or tuckaway tail lift options, both models have a 5.2 litre, 190PS engine, making them ideal for mid and longer distance haulage operations.

7.5 tonne CURTAINSIDER

MODELS IN THIS RANGE: N75.190(E) CURTAINSIDE TUCKAWAY

Curtainsiders are such a popular choice for our 7.5t customers that we had to add the model to our Driveaway range. When combined with the low chassis height and Easyshift automated gearbox on our N75.190(E) model, our 7.5t curtainsider is an efficient and reliable performer.

Companies we work with...

Investing in a new vehicle or fleet of vehicles is a major decision for any business. We work with our customers to build the best trucks for their operation and nurture key relationships that develop as their business grows. Many of our customers stay with Isuzu for life and come back time and again when they need new commercial vehicles. Here's what some of them have to say about us.

“

Without doubt, Isuzu Truck UK has set themselves apart by their overall approach to customer service over the years.

“We believe that the Isuzu Gafter Jiffy Banquet is the perfect addition to our product range, providing us with a reliable base vehicle that can carry the required weight easily. It's Euro VI, environmentally friendly and extremely fuel-efficient, with no need for AdBlue. We have found Isuzu Truck UK to be a manufacturer that is extremely commercially minded with first class communications. We have developed an excellent working relationship with them in such a short time and they fully understand that our customers work five days a week, requiring fast turnaround for servicing and repairs. The experienced nationwide Isuzu Truck dealer network also gives us the highest level of aftermarket back up that we need for the long-term support of our customers.”

John Briggs, Managing Director, Jiffy Trucks

“The Isuzu 7.5 tonner is the right specification for us and ideally suits our nationwide branch network operation. Most importantly, it gives us an impressive 3 tonne payload, which we find to be perfect for the distribution of heavy plant and machinery to our customers. We now have 100 Isuzus in the fleet and that milestone is a clear demonstration of our faith and trust in Isuzu at this GVV. Without doubt, Isuzu Truck UK has set themselves apart by their overall approach to customer service over the years. Generally, getting good quality after sales service to support our fleet is challenging at times, however this is not the case with Isuzu. Their CARE programme leads the field by far and is one of the major reasons why our relationship with them has flourished over the past 10 years.”

Martin O'Neill, National Fleet and Logistics Manager, HSS Hire Group

“I think we must have been one of the first operators of Isuzu trucks here in the UK and our two businesses have grown successfully together over the last 18 years or more. With over 18 years’ experience of the Isuzu Truck brand, we recognise that it is an extremely good product with industry leading payload and most importantly, consistent and effective backup. We believe that this customer support is as good or better than any other commercial vehicle manufacturer in the business.”

Mac Engledew, Director, Recovery World

“We undertook considerable due diligence to identify that the payload afforded us by switching to the bigger GVW Isuzus would enable us to operate less vehicles in total, whilst also increasing our efficiency in distribution through the increased payload achieved. At the same time, the Isuzu’s compact footprint enables them to easily deliver to all the same places as the vans... By switching to Isuzu 7.5t rigids, we have been able to achieve the minimum payload of 2.8 tonnes that makes this operation viable, as we need to carry at least two kitchens and two remedials within each Isuzu for this new distribution operation to be successful.”

Lee Holmes, Head of Transport, Wren Kitchens

“Our normal body choice with Isuzu trucks is the beavertail specification, however, for this order we were looking for an increased number of curtainsided 7.5 tonners and once again the Isuzu chassis was spot on, as it’s a lightweight rigid chassis where we can maximise the payload to suit our business requirements... It is normal policy to run these vehicles for a three to five year period, however such has been the reliability and toughness of the Isuzus that we have kept some of the very first original Isuzu trucks in our fleet. I am pleased to say that they are still going strong after nine years of very hard work.”

Mark Woodworth, Head of Transport and Logistics, Speedy Hire plc

Aftersales.

Receiving your new Isuzu truck is just the beginning of your relationship with us. Our comprehensive aftersales solutions cover servicing, parts and, in the unlikely event that you should need our help, 24/7 roadside assistance, which is available all year round. All of our new trucks come with a three year unlimited mileage warranty, backed by our extensive, nationwide dealer network for ultimate peace of mind.

To find out more about our aftersales solutions: [click here.](#)

Repair & Maintenance.

Our Repair and Maintenance (R&M) contracts offer total peace of mind for both large fleet operators and smaller businesses. R&M contracts take the hassle out of managing your vehicles' regular services, inspections and repairs. With three different packages available over a term that best suits you and your business, our R&M contracts are designed to save you valuable time and effort that would otherwise be spent managing your vehicle(s).

Terms and Conditions apply. For more information: [click here.](#)

**3 year unlimited mileage warranty.**

We are proud to offer one of the most comprehensive warranty packages in the commercial vehicle industry. As long as your truck is maintained to our recommended guidelines, you will receive total peace of mind for the first three years of its life.

**24 hour emergency assistance.**

We know that great customer care is most effective at stressful times, such as in the unlikely event of a vehicle breakdown. As part of our three year warranty package you will be automatically registered with Isuzu Assist, our 24/7 roadside assistance service, to help you get back on the road as quickly as possible.

Customer Care.

Customer Care is at the heart of our business. Developed in 1996 by Isuzu Truck UK founder, Nikki King, our CARE (Customer facing; Always listening; Reliable & trustworthy; Efficient and friendly) programme is still a key driver within the business and our network to this day. As an Isuzu truck customer, you will have access to all the benefits of our comprehensive customer Care programme from the day your new truck goes on the road.

We pride ourselves on building great working relationships with our customers, to ensure they have the best possible experience as an Isuzu truck owner. When you join the CARE programme you will be allocated your own dedicated Customer Liaison Executive, who will contact you throughout your truck's warranty period to ensure you are happy with both its performance and the service you receive from our dealer network.

For more information: [Click here.](#)

A finance plan for you.

All of our vehicles are available to purchase on finance, with a number of different plans designed to suit you and your business. To find out more about our flexible finance options, please speak to your local Isuzu truck dealer. You can find them using our dealer locator: [click here](#).

Operating Lease.

An Operating Lease is a hire contract between you and Isuzu Truck Finance. The rentals are calculated upon the estimated depreciation of the truck over the hire period. At the end of the contract, once all obligations have been met, you return the truck with no further payments required.

Finance Lease.

A Finance Lease is also a hire contract between you and Isuzu Truck Finance. In this case Isuzu Truck Finance agrees to purchase the truck you have selected from Isuzu and hire it to you for an agreed period of time. Typically, the initial cost will be lower than other forms of credit and the rental payments thereafter will be evenly spread across an agreed term, often referred to as the primary term. At the end of the primary term, you may continue to use the truck in return for an annual fixed rental or alternatively you may sell the truck as agent of Isuzu Truck Finance and retain the bulk of the sale proceeds by way of a rebate of rentals.

Hire Purchase.

Hire Purchase, commonly known as Lease Purchase, is a hire contract with the cost of the truck repaid in full over an agreed term. Full VAT is payable on signing, which Isuzu Truck Finance will accept as a deposit. Once all the payments and the option to purchase fee have been made, title of the truck will pass to you. For tax purposes, you are deemed to be the owner of the truck and can therefore claim against capital allowances.

Contract Hire.

Contract Hire offers businesses a smart, seamless package whereby all of your costs for running the vehicle are covered in a single monthly payment. The monthly rental excludes driver costs, fuel and insurance but by adding on Isuzu's Repair and Maintenance Agreement, subject to terms and conditions, the contract package can include all servicing, maintenance, tyres and administration.

Dealer Network.

Whether you want to view a new truck, arrange a service or buy genuine parts, our dedicated dealer network is ready to help. With over 50 Isuzu sites located in key areas throughout the UK, you're never far from an Isuzu technician who has been trained to the highest standards. Many of our workshops have extended opening hours to ensure greater flexibility when servicing your Isuzu truck.
