

500X

# THE SIDE OF BEAUTY

The strength of beauty: Fiat 500X is the crossover that combines style and substance, ready to rule the road, with little extra that makes it truly unique. Its two souls, metropolitan and crossover, are designed to appeal to everyone, offering exceptional comfort, technology and segment-leading safety.

**500X** expresses the values  
that made the Fiat 500 an icon  
recognised all over the world.

In the Fiat 500X, seductive Italian design  
embraces the substance of a  
comfortable, high-performance car  
that's always connected to the world.

#### WORLD CLASS QUALITY

Excellence comes from excellence: the Fiat **500X** is produced at the renovated SATA plant in Melfi (Potenza), one of the world's most efficient production sites and the first in Italy to receive Silver Level WCM (World Class Manufacturing) certification due to this method of international production cycle organisation. The plant at Melfi is an organisational model inspired by the principles of streamlined production that reduces the steps in the production chain, simplifying the assembly operations to bring the **500** family's newest wonder into existence.

# CHARM and AUDACITY

----- 500X CROSS • CROSS PLUS

These two trim levels demonstrate the Fiat 500X's more adventurous soul. This is ideal for those looking for the strong and distinctive appearance of a true Crossover, but who don't accept compromise when adventure calls.

The Fiat **500X Cross** and **Cross Plus** are available with front wheel drive combined with the Traction+ system or 4-wheel drive. They are characterised by "off-road"-look bumpers with protective shields, specific "off-road" design alloy wheels, satin-chrome finished exterior details and roof rails.

# CLASS and PERSONALITY

o----- 500X POP • POP STAR • LOUNGE

It takes style to get yourself noticed  
on the city streets.

The versions with a more metropolitan soul  
do just that, thanks to the styling of the body  
coloured bumpers and the chrome details that  
highlight the quality of the Fiat 500X.

# EXCEPTIONAL

TRANSMISSIONS

The Fiat 500X debuts with a class leading 9-speed automatic transmission. Thanks to its 20 different mappings, it features smoother gear changes and optimised fuel consumption when compared to a conventional automatic transmission. An exclusive in the world of compact crossovers. The same attention to consumption is reflected in the automatic dual-clutch transmission (DCT). It also enhances the dynamic features of the Fiat 500X with its precise and direct feel when changing gears. The DCT transmission can be used automatically or sequentially to adapt to a more comfortable or sporty driving style. A comprehensive array of features offers something for everyone.

**The 9-speed automatic transmission** is available in combination with the 2.0 MultiJet II 140 HP engine with 4x4 or the 1.4 MultiAir 170 HP engine also with 4x4: the superior torque handling and smooth delivery allows for outstanding performance and comfort, with the exclusivity and safety of the four-wheel drive.

A dual-clutch automatic transmission is available with the 1.6 MultiJet II 120 HP diesel and the 1.4 MultiAir II 140 HP petrol engines, providing continual torque and drive without power loss during gear changes. Dual-clutch automatic transmission can be used in automatic or sequential mode, depending on whether a more comfortable or a sportier drive is needed.

Fiat 500X behaves like a larger crossover thanks to its superior handling, stability and driving comfort, courtesy of the MacPherson Independent rear suspension. What's more, thanks to the availability of three different drive types, 4x2, 4x2 with Traction+ and 4x4, it offers the widest choice in its segment.

#### 4x4

A particular feature of the 4x4 on the Fiat **500X** is the adoption of a **rear axle disconnection system** that reduces energy wasted by only driving the front wheels when four-wheel drive operation is not required. Rear axle disconnection smoothly switches from two-wheel to four-wheel drive and ensures that **torque is permanently managed without the driver having to intervene**.

#### 4x2 TRACTION+

The **Traction+ system**, combined with the 4x2 versions of the Cross and Cross Plus, is an electronic traction control system that uses the braking system to ensure optimal torque distribution between the front wheels, allowing the car to tackle low-grip surfaces.

Sport Traction

500X  
POP STAR, LOUNGE

Auto

Sport All-weather

**The Drive Mode Selector** allows the driver to select one of the three available “moods” that optimise driving dynamics, altering the behaviour of the car. It comes as standard on the Pop Star, Lounge, Cross and Cross Plus versions.

\*n/a on 1.3 MultiJet & 1.6 E-torq engine

The Fiat **500X**'s 4x4 system doesn't limit your thirst for adventure and is perfectly matched with the Cross and Cross Plus: thanks to the ride height (higher than the 4x2), the bumper design which improves the approach and departure angles and the protective shields, these versions are perfectly comfortable both on and off-road.

Data refers to the Cross/Cross Plus version with 4x4A

The wide engine range of the Fiat 500X offers something for everyone delivering between 95 and 170 horsepower with a capacity between 1.3 and 2.0 litres.  
All engine versions comply with Euro 6 standards and come as standard with Start&Stop (except the 1.6 E-torq), providing outstanding performance and fuel consumption with limited CO<sub>2</sub> emissions.

# TRAORDINARY

SAFETY

With the Fiat 500X you can enjoy every journey in complete peace of mind thanks to the wealth of safety standard equipment; which includes, in addition to the 6 airbags and ESC system fitted as standard, optional active safety systems such as Adaptive Cruise Control and Blind Spot Detection. Maximum protection, minimum stress for an exceptional driving experience.

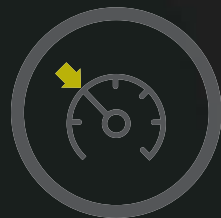

#### Brake Control

Using radar and video sensors to detect the speed of the vehicle in front in relation to the Fiat 500X, the system will advise the driver if they are approaching too fast and therefore there is a risk of collision. Should the driver not intervene, the system automatically activates braking to avoid the impact or mitigate its effects.

#### Electric parking brake

The Electric Parking Brake is easier and smoother to use because of its automatic functions: Auto Apply activates the brake when the car is turned off; Drive Away Release deactivates the brake before pulling away; Safe Hold activates the brake in unsafe conditions.

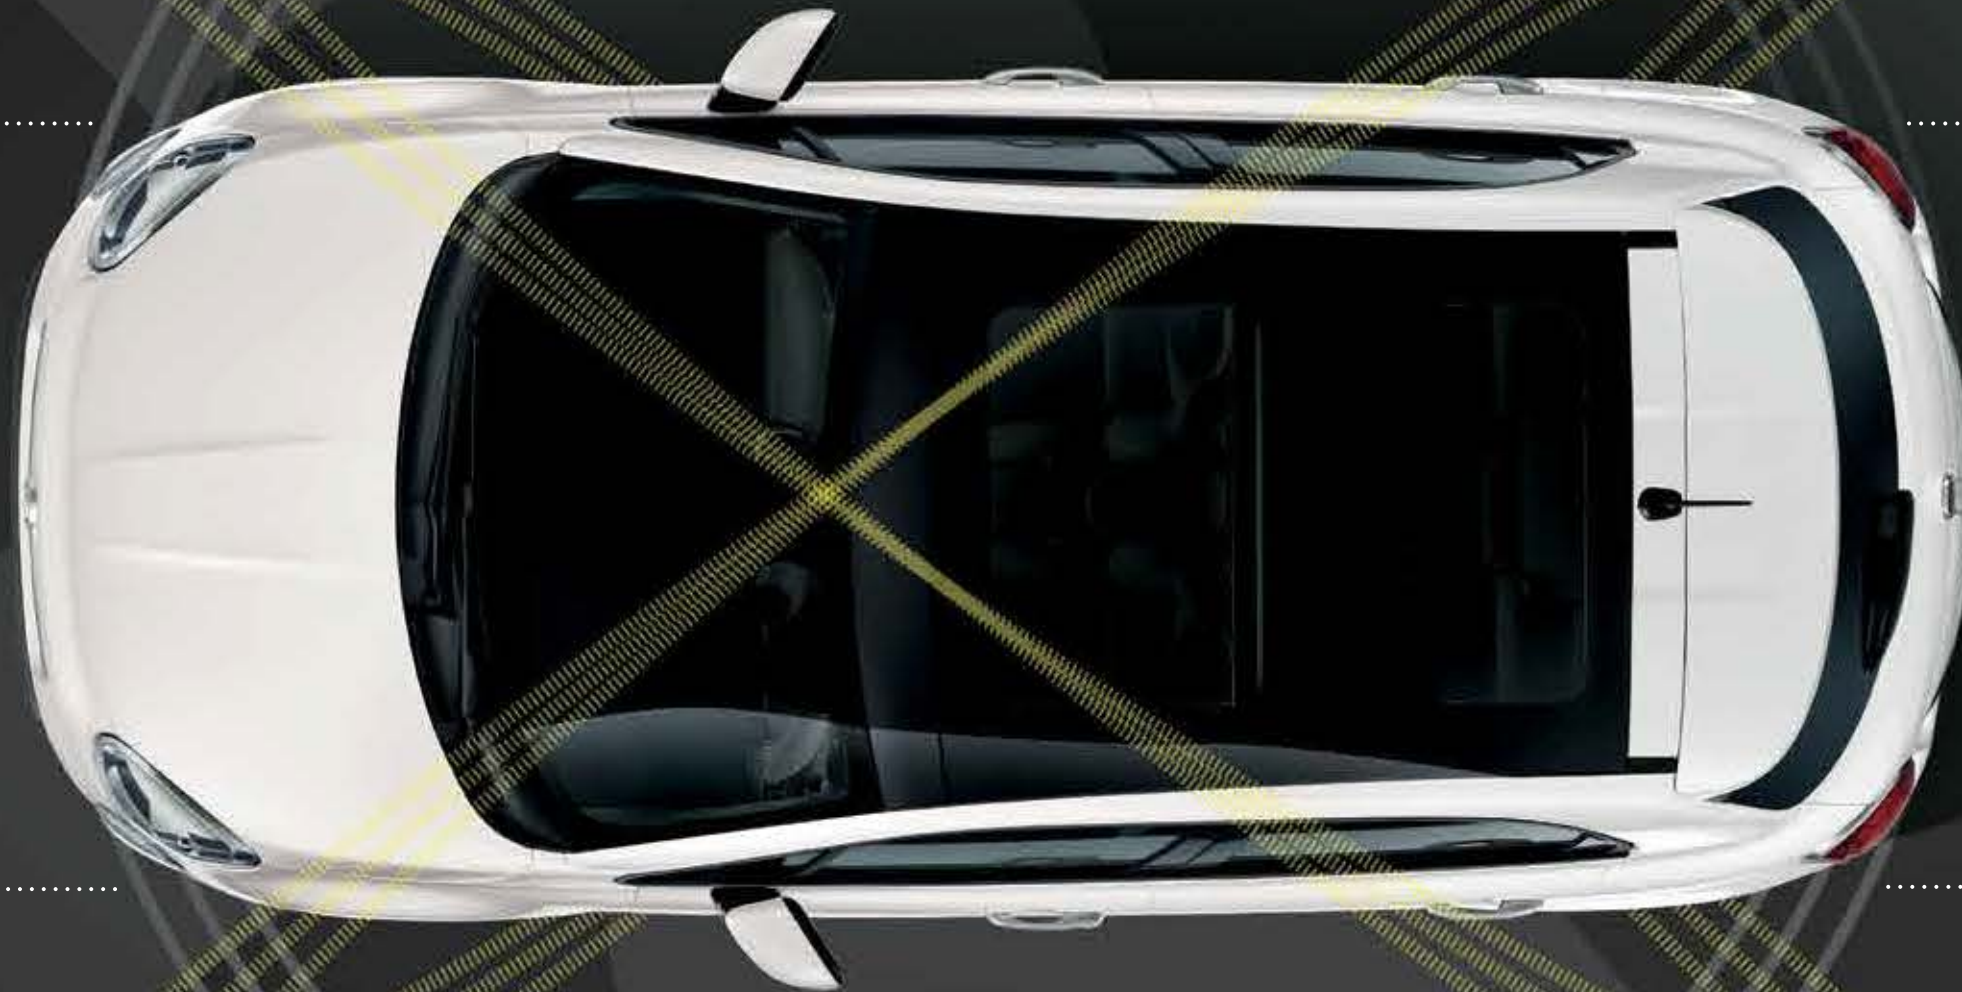

#### Adaptive Cruise Control

Active driving assistance system to automatically maintain the set speed, or the distance from the car in front. It operates at a range of speeds between 19 mph and 93 mph, and is available for all types of transmissions (manual, automatic, DCT).

.....  
**Brake Control** .....

**Electric parking brake** .....

.....  
**Adaptive Cruise Control** .....

.....  
**Lane Assist** .....

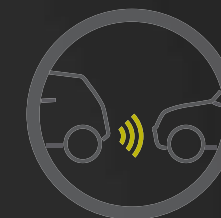

.....  
**Rear camera and rear parking sensors** .....

.....  
**Blind Spot Assist** .....

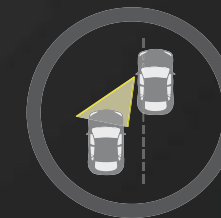

#### Lane Assist

Advises the driver when they change lane involuntarily (without using the indicators). A visual indication on the instrument panel is accompanied by greater resistance of the steering to the change in direction.

#### Rear camera and rear parking sensors

The rear camera and parking sensors help to monitor obstacles while parking. A dynamic grid is displayed on the screen to assist, and an intermittent alarm sounds during the manoeuvre.

#### Blind Spot Assist

Monitors the presence of vehicles in 'blind spots' and advises the driver through a light signal on the door mirrors. Includes a function that advises the driver, when reversing, if a vehicle is approaching from the side.

# X TROVERTED

----- INFOTAINMENT

Sociable and open to the world, the Fiat 500X is always connected to the most important social networking sites through the range of Uconnect™ LIVE\* systems.

\* Uconnect™ LIVE systems, where available, require a data enabled smartphone to use.

Uconnect™ Radio

Uconnect™ 5" Radio Nav LIVE

Uconnect™ 6,5" Radio Nav LIVE

**Uconnect™ Radio** is the gateway to the Uconnect™ world: a simple but complete sound system thanks to the RDS tuner, the steering wheel with audio controls and the media player with USB and AUX inputs.

**Uconnect™ 5" Radio Nav LIVE** adds a large 5" touchscreen, DAB (Digital Audio Broadcast) tuner, navigation system, Bluetooth® with audio streaming and eco:Drive functionality.

**Uconnect™ 6,5" Radio Nav LIVE** represents the top infotainment offering, and adds a wide-screen high-definition 6.5" touchscreen and navigation with 3D landmark details.

With Uconnect™ services you can experience a new way of driving. **TomTom LIVE** will keep you constantly up to date on traffic, weather and information about your journey in real time. Your journey can also be accompanied by more than 100 thousand Internet radio stations via Tuneln or a music library of over 35 million songs with Deezer. Additionally you can keep up with the latest news from the world with Reuters.

On board the Fiat **500X** it's easy to enhance your mood and enjoy your favourite music wherever you're going with the Beats Audio Hi-Fi system. Thanks to its 9 speakers and amplifier with more than 500 watts of power, it offers clean and high-fidelity audio response at any volume.

TRA  
COMFORT

The **500X** takes care of its passengers with style and the driver is at the centre of the attention: the dashboard welcomes the driver with a comforting touch and feel, thanks to the quality of the surfaces, finishes and materials, exclusive to the Fiat 500X. The seats have been designed to offer optimal comfort: they're wide and embracing and the sides are embellished with finishes in a refined "prêt-à-porter" material.

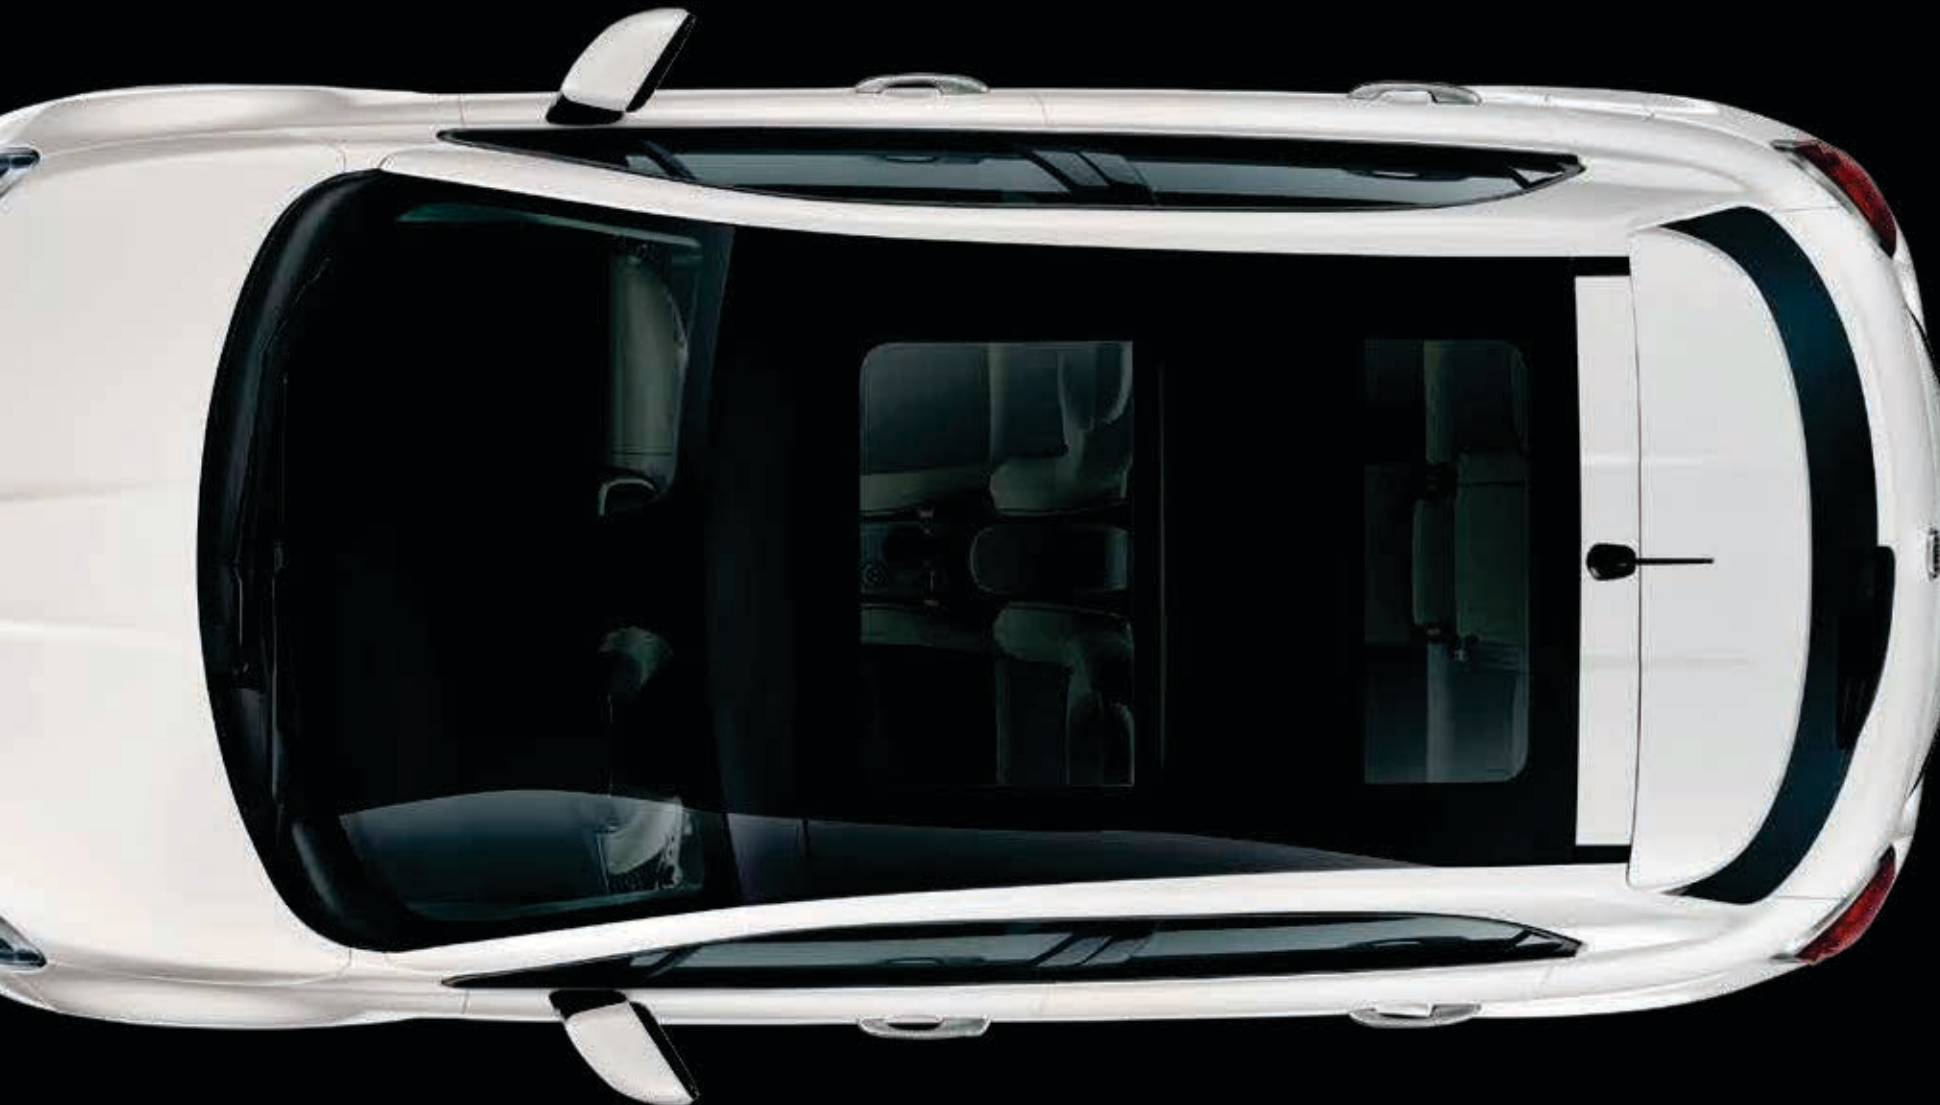

Lounge version with tobacco-coloured perforated leather interiors.

Cross Plus version with black-coloured perforated leather interiors.

Optional electric glass roof.

**500X POP - POP STAR**  
Interior with structured black fabric and black technical fabric.

**500X POP STAR**  
Interior with structured black/grey fabric and ivory technical fabric.

**500X LOUNGE**  
Electro-welded grey fabric with "prêt-à-porter look"/beige eco-leather.

As an optional extra and only in combination with leather upholstery, front seats with 8-way electrical adjustment are available.

**500X LOUNGE**  
Electro-welded grey fabric with "prêt-à-porter look"/dark brown eco-leather.

**500X CROSS - CROSS PLUS**  
Structured grey fabric with three-dimensional knit/black eco-leather.

At your service

Diversity is the only thing that makes us unique. The 500X ensures you can always be yourself with many exclusive accessories and customisations developed by Mopar®. That's why with the Fiat 500X it's easy to follow your passions.

Model shown contains optional equipment

COLOURED XTRA PACKS

- Red Xtra pack (mirror covers, mouldings and stickers)
- White Xtra pack (mirror covers, mouldings and stickers)
- Bronze Xtra pack (mirror covers, mouldings and stickers)
- Beige Xtra pack (mirror covers, mouldings and stickers)
- Black Xtra pack (mirror covers and stickers)

**Many different key covers** to make your Fiat **500X** even more personal.

**Chrome Xtra pack**  
(mirror covers, fog light surrounds, strip on bonnet, mouldings)

ORGANISER FOR LUGGAGE COMPARTMENT

LEISURE XTRA PACKS

**Customisations**

For a splash more colour, there are five Xtra packs available (Red, White, Black, Bronze, Beige) comprising mirror covers, door moulding inserts and roof/bonnet stickers which perfectly match the exclusive alloy wheel rims (sold separately). The Chrome Xtra pack is available for those who prefer a sleeker, chromed look.

**Carrying system line**

Attractive and functional, the Fiat **500X** has a wide range of systems for transporting sports equipment like bikes, surfboards, skis and snowboards, as well as other accessories designed to make the best use of the luggage compartment together with guards, nets and organisers. And, for greater comfort, the Fiat **500X** offers you two packs dedicated to leisure: Summer and Winter Xtra pack, combining either bike rack or a ski rack with the luggage compartment protection.

**Alloy wheel**

To transform your car into an exclusive item, MOPAR® has designed a range of 18" alloy wheel dedicated to the Fiat **500X**, available in 5 exclusive finishes.

# MAINTENANCE AND REPAIR SERVICES

## **MAXIMUM CARE WARRANTY EXTENSION: MAXIMUM COVER AND ZERO WORRIES**

Maximum Care gives you the opportunity to protect your vehicle beyond the standard three year warranty to a maximum of five years by purchasing a Maximum Care Warranty product.

This product can be purchased at any dealership or authorised workshop at the point of sale and will apply as soon as the standard warranty offer expires.

## **“EASY CARE”: A MAINTENANCE PACK CREATED SPECIALLY FOR YOUR CAR**

Follow all the mandatory and manufacturer recommended maintenance services with "Easy Care".

This is the Mopar product that allows you to purchase maintenance services in advance at a reduced price. Choose to purchase our maintenance packs at the time of purchasing your new car or before the first service.

\* For more information on the terms, limitations and exclusions of Mopar Vehicle Protection service contracts, contact your Dealership and/or Authorized Fiat Workshop or visit [www.fiat.mopar.eu](http://www.fiat.mopar.eu).

**FIAT FINANCIAL SERVICES\***

Fiat Financial Services offers a comprehensive range of finance and insurance plans including Fiat i-Deal PCP, traditional Hire Purchase, Guaranteed Asset Protection Insurance and SMART Repair Insurance. Please ask your Fiat dealer for more information or visit the [www.fiat.co.uk](http://www.fiat.co.uk) website. Written quotations available on request.

**FIAT CONTRACT HIRE\*\***

Fiat Contract Hire provides hassle free motoring for private and business customers - you benefit from low initial outlay, regular rentals and no worry about disposing of your vehicle at the end of the contract. You can also include a full maintenance package within the monthly rental. For more information please contact your Fiat dealer. Written quotations available on request.

\*Fiat Financial Services is a trading style of FCA Automotive Services UK Ltd. FCA Automotive Services UK Ltd is authorised and regulated by the Financial Conduct Authority (Firm Reference Number 312683 and CCI-IP-421472). Credit available to anyone aged 18 or over subject to status. A guarantee may be required. Written quotations are available from FiatFinancial Services, PO Box 4465, Slough, SL1 0RW.

\*\*Fiat Contract Hire is a trading style of FCA Fleet Services UK Ltd. FCA Fleet Services UK Ltd holds Interim Permissions with the Financial Conduct Authority for credit purposes (CCI-IP-439467). Credit available to anyone aged 18 or over subject to status. A guarantee may be required. Contract Hire facilities are available subject to credit approval. Written quotations are available from Fiat Contract Hire, PO Box 4590, Slough, SL1 0WU.
